

Claudia Long

Prekindergarten Faculty

Claudia Long has been the prekindergarten teacher at Saint Francis Xavier since 2007. She received her Child Development Associate Credential (CDA) in 1990 and has been involved in Early Childhood Education ever since. Before joining the teaching staff at SFX she was the Director/Manager of two Child Development Centers.

She married George Long in 1973 which produced three amazing children, eight beautiful grandchildren (7 boys & 1 girl) and one adorable great grandson. She enjoys various arts & crafts, vintage B&W movies/musicals and has a passion for sunflowers.

Her teaching philosophy is based on the belief that every child is special and unique and deserves to feel safe and supported. She believes that children are naturally curious and require an environment that allows opportunities to explore and discover. As an educator, she feels the importance to facilitate the growth of the whole person in a way that allows them to learn and grow on an intellectual, physical, emotional and spiritual level.
