

Mary Cremer
1st Grade Faculty

Mrs. Cremer began teaching at St. Francis Xavier School in 1987. She grew up in Montana and graduated from Rocky Mountain College in Billings with a double major in History/Political Science and Elementary Education with a minor in psychology. She is an avid reader and enjoys keeping current on research and changing trends in education.

Mrs. Cremer and her husband have three children all of whom attended St. Francis Xavier and Judge Memorial High School. As a family they enjoy camping and the outdoors.

Mrs. Cremer feels very fortunate to be part of the St. Francis Xavier staff. She feels the sense of community has always been strong. The welcoming setting provides the students a nurturing, supportive learning environment that helps prepare them for life outside of the school setting. The culturally diverse population adds to the rich learning environment. She loves teaching first grade. She feels that she learns so much about the beauty of the world around her by experiencing God's creation through their eyes.
